Wireless network music system

DENON

Enjoy music anytime, anywhere-wirelessly.

*iPod not included

S-52

Bullet points

Easy to get started

With S-32/52, reaching out to your favorite music content is now as easy as turning in to your favorite radio station.

Enjoy different types of music through out your home.

- Listen to your music files stored in your PC or Mac wirelessly
- Listen to your internet radio wirelessly
- Listen to FM/AM radio
- Listen to XM radio (S-52)
- Listen to HD radio (S-52)
- Listen to your portable player
Just plug and play your iPod®. Enjoy the full control of your iPod® with the friendly remote control unit.
- Listen to your CDs (S-52)

Feel the powerful bass you've never experienced from a system in this class. Your MP3 and WMA music files that you recorded on to CD-Rs and CD-RWs will also amaze you.

Smart Operation

- The built-in iPod® dock on top
- Friendly high contrast graphic LCD
- Multi-task jog wheel on top
- Auto clock set & adjust via internet
- 'Alarm 1' and 'Alarm 2' functions
e.g. You want to wake up with a music from your iPod® at 6am (Alarm 1) and you don't want to miss your favorite radio show at 11:30am (Alarm 2)
- Simple remote featuring direct 'source' key section, playback key section, and browsing section.

Smart Sound

Powerful and dynamic sound reproduction
Even with its compact size, its dynamic sound is evident from the bottom to the top. Denon's experienced electronics engineering and latest technology make everything alive as ever. Simply be impressed by the power with quality.

- High quality sound reproduction from Denon
The same serious engineering with passion and know-how is put in the electronics to reproduce the best quality in class.
- High quality sound tuned speakers
The S-32/52 built-in speakers were targeted to have internationally accepted sound reproduction excellent for music. Its mono-out allows the use of separate subwoofer of one's choice if ever required.

Smart Network

- network connectivity
The WiFi certified S-32/52 allows you to reach more content of your choice from internet radio to music files in your PC or Mac without being wired. Just browse and play.
- Music client function
(AAC, MP3, WAV, WMA), FLAC (Free Lossless Audio Codec)
- Plays internet radio
